I Got You

The Mavericks

It's one of those days
When trying to make a Dollar's
Got me wearing thin
And what I thought was right
Just turned out to be wrong againYou know it don't pay
To have a broken back
From carrying all those worries 'round
But honey I have foundThat I got you to make me love you
I got you to make me care
I got you right here beside me
When nothing else is thereIt don't matter about the money
'Cause I got your lovin' honey
And I could lose it all today
But I got youYou know me well
Well enough to know if it's me
Or only my foolish pride
That make me say the things
To you that only make you cryAnd you can tell
When the time is right
To hold me tight or let me go
But darling I need you soI got you to make me love you
I got you to make me care
I got you right here beside me
Oh when nothing else is thereIt don't matter about the sorrow
'Cause I still have you tomorrow
And I could lose it all today
But I got youWell it don't matter about the sorrow
'Cause I still have you tomorrow
And I could lose it all today
But I got youAnd I wish there was a way
But words could never say
The love I feel today
'Cause I got you
