

# Cuff Wars

## The Soviettes

When your eyes fall down you know you're like a crook  
For a second we had everything it took  
Nights forever long, we shut it off just right and we were wasting time  
You know we could go, at a quarter to three? You're on  
Fake it, say it's black, I know it's red you see  
Time and time and time again it wasn't me? Yeah you know it was  
We've gotta fix it fast, don't give up just yet  
Well all you've gotta say is "you know we could go" at a quarter to three? You're on
