

Every Night's Another Story

The Early November

Make your way
Down the face
Of everything we know
And go so far
See other places
And other people
I won't know about Breathe in deep,
Let it out slow
Did you hear
It's all my fault again
I know why
No one else knows
Why I am
All alone again Make it sound so good
That I won't be right
And I walk alone tonight
Outside my house
And outside my mind
No matter what I say,
I'm never right Breathe in deep,
Let it out slow
Did you hear
It's all my fault again
I know why
No one else knows
Why I am
All alone again Breathe in deep,
Let it out slow
Did you hear...
Go, go, go!
(2x) Breathe in deep,
Let it out slow
Did you hear me just go, go, go! (Breathe in deep,)
(Let it out slow)
(Did you hear...)
(Go, go, go!)
Well I will wait for you for days
Well I will wait for you for days
Well I will wait for you forever

(2x)
