Jones

Moon Jr.

Wake up Jones stop sleeping on your Momma's coach
Waiting for it to happen get up from
With the yellow finger tips and your bellyful whining complaints
Well I could do but I'm Happy doing nothing this way the Days get
Longer x10 repeat
And I'm not giving it away but you wouldn't have me any other way
Would you I'm not delibretly lame its just
The Way I am and you like it anyway
I don't have to be wrong but when I do it wrong I do it right
Some of us have it but some people don't have the nerve
Well thats all fine but your big ass is growing
And Your hair's got longer then mine
And Its about time you thought about somebody else
And get yourself to the line

Well I hear you but I'd rather be a nothing
This way the days get longer x10
And I'm not giving it away but you wouldn't have me
Any other way would you I'm not Delibretly lame
Its just the way I am and you like it anyway
I don't have to do it wrong but when I do It
Wrong I do it right some of us have but some people Don't have nerve
Get off Jones I've had about enough
Of your good for nothing hanging around
Well I hear you but I'm Happy doing nothing
This way the days get Longer x10
I'm not giving it aay but you wouldn't have me any other way would you
I'm not Delibretly lame its just the way I am and you Like it anway
I don't have to do it wrong cause when I do it wrong
I do it wrong I do it right some of us have it but some people don't have the nerve
