Key

Devics

You think you can have both of them and I want you to know
That Im in, Im in
And this time Im staying to bur the trail that you left, you left
And if I was cold, well then you would stay inside me, warm me
Here Im safe so here I stay
Lift me out, lift the doubt
You asked me to say what I had done
I told you just like I told everyone
I still have some doubts that you are the reason
Still this is just so hard cause I know that Ill be left like always
Here Im safe so here I stay
Lift me out, lift the doubt
