

# Emote

## Crossbreed

When I  
I push it away  
This is not what you wanted  
I keep on pushing away  
Without you Sometimes I feel, sometimes I don't, this time I'm lost inside  
I guess I could have tried  
This time I crossed the line  
To end this journey you must disengage  
And let these dreams subside A song never leads me,  
Only the words I have spoken of  
Have meaning  
And I will deliver you to those  
Free of emotions, take me When I  
I push it away  
This is not what you wanted  
I keep on pushing away  
Without you Sometimes I feel, sometimes I don't, this time I'm lost inside  
I guess I could have tried  
This time I crossed the line  
To end this journey you must disengage  
And let these dreams subside A song never leads me,  
Only the words I have spoken of  
Have meaning  
And I will deliver you to those  
Free of emotions, take me  
A song never leads me  
Only the words I have spoken of  
Have meaning  
And I will deliver you to those  
Free of emotions, take me (take me!)  
Don't try! A song never leads me  
Only the words I have spoken of  
Have meaning  
And I will deliver you to those  
Free of emotions, take me (take me!)
