Open House

Norman Bailer

So you think you had a walk in the park
You don't think you'd be no working too hard
Looks like you've been opening up
You don't want to but you can't stop can't stop
What's the name you tried to find?
Did you see the way she appeared?
She's the type that knows everyone here
Know the face but I don't know her name

Know her friend and you know she's just the same
What's the name you tried to find?
Open house and I'm opening up
I don't want to but I can't stop can't stop
Open house and I'll never come down
Tear it up when the morning comes around
What's the name you tried to find?
