

Hip Hop Changed

Crookers & Rye Rye

In the streets still hang
That's why sometimes I still talk that slang
i still crank that payne
i'm zoning thinking that im in the everglades mang
Creep up on to the shack real slow
And you might understand where this shit gunna go
And when I give it to you then my mic gonna blow
Welcome to the world of the hip hop show
I'm laid back on the place just chillin'
And when I get excited when it's something that I'm feelin'
And when it comes to money I be sayin "kill billin"
Got my pen and paper let my thoughts start spillin'
They say they lost their soul to the hip hop break
Different styles, versatile, so we gave it a twist
And it can easily be classified a new hit
And we still got living legends so we got that hip
They say hip-hop changed
But you know we still talk that language
Just another twist in the shit that we bring
And hip-hop saved my life so I framed it
They say hip-hop changed
But you know we still talk that language
Just another twist in the shit that we bring
And hip-hop saved my life
So I framed it
It's going down when you hear that deep sound
Police be on call when you come through my town
Cause stakes is around and we all want that crown
rize to da rappers got them shootin' shit down
all think we G, but what could it be
the media, the radio, maybe TV
or could it be that we was raised in the hood
and still got that swagger always and for good
So, I looked up in the sky and heard a million records
Crying out for the prize, the day gunna come
and we all gonna rise
Got a pension for this shit so everyday we try
But I think I try hard enough started rockin' out clubs
banging hard in another
Showin' mad love to the homies and the brothers
Hip-hop-anatic, real talk undacover
They say hip-hop changed

But you know we still talk that language
Just another twist in the shit that we bring And hip-hop saved my life
So I framed it
They say hip-hop changed But you know we still talk that language
Just another twist in the shit that we bring
And hip-hop saved my life so I framed it In the streets still hang
That's why sometimes I still talk that slang
i still crank that payne
I'm zoning thinking that I'm in the everglades mang Creep up on to the shack real slow
And you might understand where this shit gunna go
And when I give it to you then my mic gonn' blow
Welcome to the world of the hip hop show
I'm laid back on the place just chillin'
And when I get excited when it's something that I'm feelin'
And when it comes to money I be sayin "kill billin"
Got my pen and paper let my thoughts start spillin'
They say they lost their soul to the hip hop break
Different styles, versatile, so we gave it a twist
And it can easily be classified a new hit
And we still got living legends so we got that hip
Still got living legends so we got that hip
Still got living legends so we got that hip
Still got living legends so we got that hip
Still got living legends so we got that hip
Still got living legends so we got that hip
Still got living legends so we got that hip
Still got living legends so we got that hip
So, so everyday day-day-day-day-day
Hip Hop
Every day-y-y-y-y we try
Hip-hop changed
Hip-hop changed
Hip-hop... Hip-hop.... Changed
I'm-I'm-I'm-I'm-I'm-I'm-I'm-I'm
Hip-Hop
I'm-I'm-I'm-I'm-I'm-I'm laid back
I-I'm laid back
Laid back
I'm laid-laid back
Laid back
I'm laid, laid back
Laid back
I'm laid, laid
back

So...
So, everyday...
Hip-Hop
Everyday we try
Hip-Hop changed
Hip-Hop changed
Hip-Hop
Hip-Hop... So I framed it
