

Your Escape

Famous Last Words

Where do we go from here?
We gotta disappear and get far away from this place
(We have to escape)
The torment and piercing fear
All caused by this engineer of these twisted vicious games
(The direful pain)
Oh how our lives have changed
All hope replaced with rage our light was lit, but now it's fading away
Just like a sinking ship, we're going under to survive we must escape
And overcome these waves
Oh my god.
Oh my god!
I'm gonna be sick.
We've got to get out of here...
We've got to go!
Carry on my dear I tell myself you're strong and you can defeat this!
Clandestinely we will vanish free
Away and never return again
We've got to leave
My son and I must flee
Far away from this sick
Monstrosity
Perpetuate our broken lives and be free from this imperiling plight that is condemning me
Honey wake up I've packed your things
We've got to go we've got to leave
Our precious time's diminishing
We've got to hurry
We must leave!
Honey wake up I've packed your things
We've got to go we've got to leave
Our precious time's diminishing
We've got to hurry
We must leave!
Can't let him see the fear in me
I must hide my anxiety
To protect him from this agony
He's coming in you've got to leave!
Go run away and get out of here
Make no delays and go disappear

Go live the life that you want to you have to simply leave me here
And son I swear it'll be okay
Just as long as you make your escape
Don't be afraid of the world go make your mark and live another day
Stay safe away
He comes in through the doorway
Each step he takes I pray he doesn't see him in the shadows of the hallway
Sneaking softly
Out the back way
No! He won't let him go! Captured him!
Now he's a hostage
Locked in the closet
He pleads! Begs us not to leave!
Again and again and again and again!
He said,
"Who do you think you are trying to leave me?
You don't know who I am
Or all the things I've seen
So take your final dose
My one last treat while you try to scream!"
Go run away and get out of here
Make no delays and go disappear
Go live the life that you want to you have to simply leave me here
And son I swear it'll be okay
Just as long as you make your escape
Don't be afraid of the world go make your mark and live another day
Stay safe away!
Drift away from here
Feel it pulse through your veins!
Take your last breath
Just drift away!
