Decaf

XBrÃ¤iniaX

Wait for the man to call
I need it fast as I can
I've been shaking all over
It's got me drumming me hands
I've been thinking 'bout the thought on my brain
About to drive me insane
There ain't no safety, you feel that thing
I press the buttons again
You reckon you've got everything to die for
Decaf is here again
It's what I live and breathe and lie for
It's X o'clock and I'm waiting
Waiting for the call
In the sweat, I keep pacing
It's time to get on the ball
I've been thinking 'bout pulling the chain
'Cause now I'm past insane
There ain't no safety, you take that step, yeah
You live without your cane
You reckon you've got everything that I'd die for

Decaf is here again
It's what I live and breathe and die for
Well, it could happen to you
Well, it could happen to you
Yeah, it could happen to you
Yeah, it could happen to you
Well, it could happen to you
Yeah, it could happen to you
You reckon you've got everything to die for
Decaf is here again
It's what I live and breathe and lie for
You reckon you've got everything to die for
Decaf is here again
It's what I live and breathe and die for
It's gonna happen to you
Well, it could happen to you
It's gonna happen to you
Well, it could happen to you

It's gonna happen to you
Well, it could happen to you
