How To Keep The Sky From Falling

Evan And Jaron

seems the morning has got you down
a gray window in a small town
don't you worry darling
don't you worry about it darling
this is how I keep the sky from falling
so hold on to me
I will try to keep the sky
from falling down on you
the ghost stories behind your eyes
are something I can sympathize with
so don't you worry about it darling
'cause I ain't worried about it darling
this is how I keep the sky from falling
(Chorus)
