Ride

Empire of the Sun

Together we can (together we can do it)

Together we can (together we can do it)

Together we can (together we can do it)

Together we can (together we can do it) Together we can (together we can do it)

Together we can (together we can do it)

Together we can (together we can do it)

Together we can (together we can do it)If I [?] say a goodbye

I don't know what I'd do, no, no

If I'm gonna make you break and cry

I don't wanna know how bad it getsDon't go falling away, you gotta make that break

Don't you turn into waste, we got it made

You have meTogether we can (together we can do it)

Together we can (together we can do it)

Together we can (together we can do it)

Together we can (together we can do it)If I steal the little look into your eyes

Think I just should through, oh oh

If we lost the taste of silent lies

I don't want to show my face againDon't go falling away, you gotta make that break

Don't you turn into waste, we got it made

You have meTogether we can (together we can do it)

Together we can (together we can do it)

Together we can (together we can do it)

Together we can (together we can do it)? Together we can (Together we can do it)
