

# Disease

## Satanic Warmaster/Clandestine Blaze

Think about your life  
Think about your life in the ground  
    Think about your pain  
Think about it then suck it down  
    Think about the road  
    Think about that your on  
    Think about your life  
        Now it's gone  
        Face up and change  
        Your time displaced  
        No way you're gonna  
            Escape  
If you could see through my eyes  
    You'll see I'm fucked up inside  
        I can't get away  
    I can't get away from this place  
        I am drowning in  
        I am drowning in my mistakes  
        I can't get it off  
    I can't get it off, yes, it's real  
        I can't get it off  
        There's nothing to feel  
        No life this is the  
        Last time I've got it  
        All wrong right from it  
If you could see through my eyes  
    You'll see I'm fucked up inside  
        Can't you just see it's a trap  
    You been jacked, you been smacked  
    You been cracked, it's a fact in the black  
        That's designed to hold you back  
        You can try, you can die  
    You can fly, you can run, you can hide  
        But the pain that you feel inside  
    You been hooked, you been booked  
        You been shook, you been took  
        Why can't you take a look?  
        Take a look, take a look  
    You're gonna burn and bleed

On your knees gonna feel the freeze  
As you feel my disease, as you feel my disease  
My disease, my disease
