

# Bloom

## Kaizen & Shinigami

If I can find a blank page  
I'd start a new beginning  
We can take the mistakes  
Replace them with an ending  
    A bit of change  
    A midnight moon  
    We'll find our way  
    As we start to bloom  
    (Brings me back to you)  
    Brings me back to you  
    (Brings me back to you)  
    Brings me back to you  
    (Brings me back to you)  
    (Brings me back to you)  
There some pieces we crave  
In a World that's ever empty  
    We can take the free space  
Build a castle, keep pretending  
    A bit of change  
    A midnight moon  
    We'll find our way  
    As we start to bloom  
    (Brings me back to you)  
    Brings me back to you  
    (Brings me back to you)  
    Brings me back to you  
    (Brings me back to you)
