

I Love You Dawn

[Bill Withers](#)

I love you, Dawn, you understand
The strength of ten men in your hands
Was another tear, was another time
All is not lost and we will shine
Beneath the tall trees, I believe
There's nothing you and me
Can't do together if we try
The day is long and the nights are cold
Just a song to warm your soul
I don't wanna see you cry
I love you, Dawn, you understand
The strength of ten men in your hands

Was another tear, was another time
All is not lost and we will shine
Above the billboards and the hordes
Magazines and rock awards
We can't afford to pay our bills
The day is long and the nights are cold
Just a song to warm your soul
I don't wanna see you cry
I love you, Dawn
I love you, Dawn, you understand
The strength of ten men in your hands
It was another tear, another year, another time
All is not lost and we will shine, shine, shine
