

Radio Paranoia (Initial Transmission)

Rabia Sorda

I dont want my freedom Im scared of it
I dont think about it, please just take it from me
I see the lights, I see the stage, get off the way!
Radio Paranoia take control of this age
switch on, switch off, Turn it on
switch on, switch off, Turn it off
switch on, switch off, Turn it on
switch on, switch off, Turn it off
Radio Paranoia I die, while evil sleeps tonight
Transmission ends today, it ends today
Radio Paranoia I longto live in days of old
When all your stories were games and only games
Riding the airwaves, I feel home
Thats all I need, that`s all I want
Sell me illusions, sell me dreams and make me smile
just dont leave me alone, stay around for a while
switch on, switch off, Turn it on
switch on, switch off, Turn it off
switch on, switch off, Turn it on
switch on, switch off, Turn it off
Radio Paranoia I die, while evil sleeps tonight
Transmission ends today, it ends today
Radio Paranoia I longto live in days of old
When all your stories were games and only games
Turn it on, let them control your mind
Turn it on, let them control your life
