

Aim For Me

Sugar Ray

Aim for me
Aim for me
Aim for me
Aim for me
(Hit it)It's a great big world
And you don't believe in nothin'
Don't believe in nothin' anyway
So we got a lot to learn
But we started out with nothin'
With my friends we're going on our waySome people change
An' your life will rearrange
Even when you're so far from home
When it's said and done
And you got yourself a run
That's okay we'll never come undoneAim for me
Aim for me
Aim for me
Aim for me
Yeah!They'll try to count you out
But you gotta count yourself in
There's no time to throw it all away
Now I'm tellin' that I'm rushing
See the trouble that we've been in
Didn't ask for nothing along the wayWhen it's said and done
And you got yourself a run
That's okay we'll never come undone
Some people change
An' your life will rearrange
Even when you're so far from homeAim for me
Aim for me
Aim for me
Aim for meYeah!
Oh my God
I, I
Hit manSome people change
An' your life will rearrange
Even when you're so far from home
When it's said and done
And you got yourself a run

That's okay we'll never come undone Aim for me

Aim for me

Aim for me

Aim for me

Aim for me Some people change

Your life will rearrange

Even when you're so far from home
