

# Te Amo

## Atlas Sound

Te amo

Pretend you know the way out of the trap

And we will go to sleep

And we'll have the same dream

You can come around

When you're down

You're always down

Always down

When you're down

You're always down

You're always down

Te amo

I'll pretend you were the only one

And we will go to sleep

And we'll have such strange dreams

You can come around

When you're down

You're always down

You're always down
