

# I'm Never Gonna Let You Down

[Al Kooper](#)

Kooper You can say that your worrying days are over  
You can say that your hard luck times are few  
You can say that your life  
Is probably twice as nice as anyone else's  
And baby you'd be right - you know it  
And it don't take too much to show it I'm never gonna let you down  
You don't have to worry  
I'll never let you wear a frown  
You don't have to worry  
I'm never gonna let you down  
You'll be up on your feet and won't life be sweet  
I'll take your time and make it into something beautiful forever  
And if ya listen ya know that folks will say:  
"Just look at them - they've really got it made..."  
Bein' so in love you'll see  
That each day is an eternity of happiness  
See if I'm not right - I ain't lyin'  
Cause everyday ya know I got to keep on tryin' I'm never gonna let you down  
You don't have to worry  
I'll never let you wear a frown  
You don't have to worry  
I'm never gonna let you down  
You'll be up on your feet and won't life be sweet  
I'm never gonna let you down  
Oh you better always be by my side  
I'm never gonna let you down  
Oh you'll be up on your feet honey
