

# Lead Me Home

Jessica Sanchez

Oh won't you lead me home to you  
To all the strength and peace you gave  
Tomorrow's harbor opens out her arms  
Sends the watch tower on the wave And you're the flame of every hope  
That ever faced into the tide  
North star in the storm  
Guiding constant friend When I was lost upon  
The lonesome seas  
Oh lead me safe to land Light the way to shore  
Bravely breaking through, lead me home  
Lead me home  
Oh lead me home to you And you're my freedom's blazing flame  
Eternal hope to tame the night  
And even all the winds of all the world  
Could never quench your light Yesterday and now  
Dreamings to pursue  
Shelter me in your arms  
Oh lead me home to you Lead me home to you  
(Lead me home to you)  
Lead me home to you  
Oh shelter me  
In your arms  
Oh lead me home to you Long on the seas  
Of hungry friendless life  
Searching for a home  
And the glow of welcome's light North star in the storm  
Guiding constant friend When I was lost upon  
The lonesome seas  
Oh lead me safe to land Light the way to shore  
Bravely breaking through, lead me home  
Lead me home  
Oh lead me home to you Lead me home  
Oh lead me home  
Lead me home to you
