

Raise Your Glass

The Planet Smashers

Over the years we made some friends
While on the road with the touring bands
Good nights we've had, some were the best
So raise your glass without protest Raise your glass, raise your glass
Come on everybody, raise your glass
Raise your glass, raise your glass
One big toast for our friends of the past Another shout out goes to our crew
For everything that they do
The gang back home and the boys overseas
When we needed a kick they'd give it gladly Raise your glass, raise your glass
Come on everybody, raise your glass
Raise your glass, raise your glass
One big Oi! for the crew, make it last Finally, we salute all of you here today
And those that couldn't get out tonight
Without all of you we'd have no right Raise your...awwww, yeah Raise your glass, raise your glass
Come on everybody, raise your glass
Raise your glass, raise your glass
One big toast for the friends of the past
Raise your glass, raise your glass
Come on everybody, raise your glass
Raise your glass, raise your glass
One big Oi! for the crew, make it last
