

Sister

[Linus Young](#)

Hey my sister, play me something good for my soul
Oh my brother, play something that never gets old
I've got this little feeling that I wanna hide
Hiding from the single thing that breaks you right
Hey my sister, play me something good for my soul
Oh my brother, play something that never gets old
Oh, if I could have you with me
I would be alright
If you can feel the way that I do
We'll be alright
I got this little feeling that I wanna hide
Hiding from the single thing that breaks you right
I wonder if we'll ever make it to the other side
I can keep going on if it's alright
Hey my sister, play me something good for my soul
Oh my brother, play something that never gets old
