Love Me

KeKe Wyatt

Look at you
Mr. Always Know It All
I blame you
But no, I'm not perfect at all
Standing face to face
But don't see eye to eye at all
Even if I let you win
Tell me who's keeping the scoreReally don't matter if we arguing
Throw me on the bed, forgive forget
Sex is even better when we way past mad
We way past that, that, thatChorus
I, want you to love me, love me, love me
Baby I, need you to love me, love me, love me
Even when we in a fight
Don't leave, just stay the night
Love me, love me, love me
Oh I, want you to love me, love me, love meI need you, to love me like you did before
When I first met you
You said my heart, you would never ignore
What would you do
If somebody else wanted more?
So throw your pride asideReally don't matter if we arguing
Throw me on the bed, forgive forget
Sex is even better when we way past mad
We way past that, that, thatChorus
I, want you to love me, love me, love me
Baby I, need you to love me, love me, love me
Even when we in a fight
Don't leave, just stay the night
Love me, love me, love me
Oh I, want you to love me, love me, love me
Eh, love me, love me, love me
Love me, love me, love me
Baby
O-o-oh
WoahChorus
I, want you to love me, love me, love me
Baby I, need you to love me, love me, love me
Even when we in a fight

Don't leave, just stay the night
Love me, love me, love me
Oh I, want you to love me, love me, love me
