

# Halo

## Bloc Party.

It was your hair that did it  
It was your hair that lit the fuse  
A golden-brown halo  
Like sunlight peeling through trees  
I ask you for the time  
But I am asking for so much more  
A moth to your light bulb  
You made my heart beat faster  
Paralyze me with your kiss  
Wipe those dirty hands on me  
And maybe we're looking for the same thing  
Maybe you're the one who'll complete me  
Oh, how beautiful  
Your lips and eyes and your fingertips  
The spark of desire  
On every point our bodies meet

Behind your eyes were stars  
Infinite and serene  
How I could suffer for you  
You fascinate and magnetize me  
Paralyze me with your kiss  
Wipe those dirty hands on me  
And maybe we're looking for the same thing  
Maybe you're the one who'll complete me  
Sometimes I think  
I was thrown away  
In this sadness  
To weigh me down  
Paralyze me with your kiss  
Wipe those dirty hands on me  
And maybe we're looking for the same thing  
Maybe you're the one who'll complete me
