

# Dark Horse

## Great Bloomers

And I know people who talk like you  
I know people who talk like you  
I've heard them speak  
With voices so meek  
And I know people who know you too  
I know people who know you too  
They send their regards  
They asked about how you are  
I wish I had a better answer  
Oh cousin, dear, oh won't you please come near  
There's always something here for you to eat at home  
You can use the telephone before you go  
I know people who have fun like you  
I know people who have like you  
You may remember them  
No leaves grew off the stem  
And someday someone's gonna take you on  
Someday someone's gonna take you on  
You seem unsure  
You practice your demure  
And how do things go so unnoticed  
With so much good around this neighborhood  
I wouldn't change a thing about you  
If you were my kid, oh what I wouldn't give  
And maybe this song could help you get along  
Like nothing's wrong
