

System

Jonathan Davis

u fell away
what more can i say
the feelings evolved i wont let it out
i cant replace your screaming face
feeling the sickness inside

Y wont u die.....
ur blood in mine.....
we'll be fine.....
then ur body
will be mine.....

so many words
cant describe my face
this feelings evolved so soon
to break out
i cant relate to a happy state
feeling the blood run inside

Y wont u die.....
ur blood in mine.....
we'll be fine.....
then ur body
will be mine.....

Y is everything so fucking hard for me
keep me down to what u think
i should be
must u tempt me
and provoke the ministry
keep on trying
im not dying so easley

Y is everything so fucking hard for me
Y is everything so fucking hard for me.....

Y wont u die.....
your blood in mine.....
we'll be fine.....
then ur body

will be mine.....
