

# At War With Reality

## Warzone

Advisory - the following lyrics contain explicit language:

War with reality  
Losing my mind  
Losing all hope  
Losing my dreams  
Living in your bullshit society  
War with reality  
Locked down in the world  
Caught, trapped  
In all this misery  
Can't you see you're being watched  
Every move you make  
A jail cell, waiting  
For you  
The cards are stacked  
What you gonna do?  
War with reality
