[Music: Aphazel / GroM - Lyrics: Aphazel]another perilous ride through the underworld  
another fiery night in the heart of hellanother battle against the blinding light  
another chance to slay and burn  
the weak defender of the sunyou weak defenderout of the darkness perpetual  
the serpent god threatens  
the cosmic orderyou ride through my lands  
unaware of the powers here within  
I tell you beware  
cause a gruesome doom awaits youone dreary night with universe in hand  
you'll see me strike and swallow  
you ghastly lightlight you ghastly light
