Son of a Time Machine

Sandra

Open your eyes
Don't say goodbye
Son of a time machine
Stay for a while
Learn how to smile
It's not the end of timeIt wasn't a dream
It was on a journey
I heard a cry
It didn't sound like other childrenHe was alive
Lookin like dyin
He saw my tears
Heaving his hands
Like he was reachin out for help
Open your eyes
Don't say goodbye
Son of a time machine
Stay for a while
Learn how to smile
It's not the end of timeCould you believe
All that you need
It's hidden in your dreams
Don't say goodbye
The circle of life
Is like the endless timeHow does it feel
When your heart is breaking
How does it feel
Thaking the pain without complainingI'm talking to you
I hope you can hear me
Just close your eyes
And you will find it
In your heart and in your dreamsOpen your eyes
Don't say goodbye
Son of a time machine
Stay for a while
Learn how to smile
It's not the end of timeCould you believe
All that you need
It's hidden in your dreams
Don't say goodbye

The circle of life
Is like the endless time
