Superheavy

Superheavy

On the rise and fall like the storm
we stand on Jah man, we set the bar
because we're heavy. superheavy.
yo! surprise the cosmic and keeping armed
outside the enemies of thee. keep so far!
because we're heavy. superheavy.
you better watch your step
keep your distance
you gotta understand
a'fore it gets too dangerous
its two steps back
and the dog won't bite
and all hell will stop
don't matter if its day or night
on the rise and fall like the storm
we stand on Jah man, we set the bar
because we're heavy. superheavy.
yo! surprise the cosmic and keeping armed
outside the enemies of thee. keep so far!
because we're heavy. superheavy.
yo! unto the war we don't know what line of star
give us a loan from your old style of car
because we're heavy. superheavy.
from argentina to zanzibar
not go no place with me strum on guitar
because we're heavy. superheavy.
we gonna rock yourself
and take no prisoners
you got no choice
and its none of your business

when the walls come down
we know we got love
its a gift to us
from the heavens above
on the rise and fall like the storm
we stand on Jah man, we set the bar
because we're heavy. superheavy.
yo! surprise the cosmic and keeping armed

outside the enemies of thee. keep so far!
because we're heavy. superheavy.
yo! unto the war we don't know what line of star
give us a loan from your old style of car
because we're heavy. superheavy.
from argentina to zanzibar
not go no place with me strum on guitar
because we're heavy. superheavy.
we're superheavy in love
we're superheavy trusting
superheavy, in love, yes we are!
yeah. its about real heavy. its about mercy.
large amount. you understand?
excess heaviness. heaviest.
heavyweight title holder.
heavyweight contenders, you understand?
ha! huge! yeah!
pep up! pep up! pep up!
heavy! superheavy!
love!
