

Cygnus...Vismund Cygnus

The Mars Volta

The ocean floor is hidden
From your viewing lens
A depth perception
Languished in the night
All my life, I've been
Sowing the wounds
But the seeds sprout
A lachrymal cloud

Nino preparete
Que vas sufrir
Nino preparete
Salte veneno
Nino preparete
Salte de aqui
Nino preparete
Labios temblando
Nino preparete
Salte veneno
Nino preparete
Salte de aqui
Nino preparete
Brincan los cuerpos
Vas a sufrir

My nails peel back
When the taxidermist ruined
Goose stepped the freckling impatience
All the brittle tombs
Five hundred little q's
I'm splitting hairs to
Match the faces

All night I'll hunt for you
Let me show you what I mean
Sangre
Sonando
De rabia naci

Now this train don't lie

An abortion that survived
A lineage of
Bastard mastacation
All the severed proof
Talons scratch my suite
These are the feathers
That replace them

All night I'll hunt for you
Let me show you what I mean
Sangre
Sonando
De rabia nac
