

Wake Me

Bleachers

Right from the start I knew
You'd set a fire in me
And I'd rather be sad with you
Than anywhere away from you And hey
I can't believe I captured your heart
Oh whoa oh
I can't believe I captured your heart Stake my life on it
If somebody's gonna quit
Then I'd rather be sad with you
Than with any other girls but you And hey
I can't believe I captured your heart
Oh whoa oh
I can't believe I captured your heart If you're lonely lonely lonely wake me
If you're lonely lonely lonely wake me
If you're lonely lonely lonely wake me
If you're lonely lonely lonely wake me
If you're lonely lonely lonely wake me
If you're lonely lonely lonely wake me
If you're lonely lonely lonely wake me
I can't believe I captured your heart Right from the start I knew
You'd set a fire in me
And I'd rather be sad with you
Than anywhere away from you And hey
I can't believe I captured your heart
Oh whoa oh
I can't believe I captured your heart
