Bloodstain

UNKLE

They say, "If you took it all away This love would fall apart" I say, "No way You don't know the size of my heart"Vicious, suspicious It doesn't matter what I say Users and losers There's nothing here to make me stayBloodstain, on a blue vein Take it with no shame Love tracks on a loose train BloodstainNo gain with no pain My scars are deeper than you think Tie me, try me One more time before I sinkBig lies, big times This love is not what we're about It's too late, and I'm too straight It's time to blow this fire outBloodstain, on a blue vein

Love tracks on a loose train
Bloodstain, on a blue veinTake me softly
I'm going crazy for your touchBloodstain on a blue vein
(Blue blood, blue blood, blue blood)

Take it with no shame
(No, take, no, take, no, take)I'm alone
And dissatisfied

Take it with no shame

And someone else is alone And dissatisfiedYou are alone
