

# Stand Right by Each Other

Lucinda Williams

Something destructive going on here  
Can you feel it baby?  
Tell me  
What you want me to do  
It's not constructive to cry  
As much as I cry baby  
Tell me what you want me to do We gotta stand right by each other  
Gotta try harder baby  
I gotta stand right by you  
And you gotta stand right by me I gotta push myself  
But you gotta push yourself  
I can't do it baby  
All by myself  
We can make it better baby  
Make a happier home  
But you gotta help me  
I can't do it alone  
We gotta stand right by each other  
Gotta try harder baby  
I gotta stand right by you  
And you gotta stand right by me Baby, I care too much  
I won't give up that easy  
So come on give me that much  
Baby don't give up on me  
If you could see yourself  
The way I see you baby  
Then you would see for yourself  
Why I don't want nobody else We gotta stand right by each other  
Gotta try harder baby  
I gotta stand right by you  
And you gotta stand right by me  
Baby this is a warning sign  
And we gotta fight it this time  
Because it's threatening to kill  
Everything we've got  
And we got too much at stake  
Gotta do whatever it takes  
I don't want us to break up  
So let's kiss and make up We gotta stand right by each other

Gotta try harder baby  
I gotta stand right by you  
And you gotta stand right by me
