

Party Time

Hattie Green

Nothing's deep
Nothing's sad
A lot of drinks
A lot of fun
The night invites you in her world
To full around and care no more
About the bills you have to pay
About what people just may say
About the money about the job
And for the girl that let you downLet's get some action
It's hot tonight
Let's get some action
Let's rock tonightLet's get some action
Let's rock tonight
Let's get some action
Hell yeah...It's party time
