Twisted Nerve

kill bill, vol. 1

You are a chainsaw through my heart
Ripping right through me from the start
You make me go crazy all night long
I need you so bad, I know it's gotta be wrongYou get on my nerves, you make me so mad
It's times like these that I just can't stand
You're so far away and I can't hurt you now
I guess I'll just use myself like I know howRip out my hair
Wish that it's yours
Cut my own skin
Pretend that it's yours
Call you up in tearsThen you'll take back all the things that you said
And we can be ourselves once againGoddamn, how you make me scream and shout
I don't wanna run around my room and pout
But you make me do it and I can't hardly stand it
You've got my heart and you know you've always had itBut now you're so far away
And there's no way to make you pay
So I'll go around my room and break anything I want
And in my head imagine breaking your heartRip out my hair
Wish that it's yours
Cut my own skin
Pretend that it's yours
Call you up in tearsYou're such a tease, you're such a jerk
Why do I waste my time?
I'll make you take back all the things that you said
I'll make you take back all the things that you saidYou're such a tease, you're such a jerk
Why do I waste my time?
I'll make you take back all the things that you said
I'll make you take back all the things that you saidYou're such a tease, you're such a jerk
Why do I waste my time?
I'll make you take back all the things that you said
I'll make you take back all the things that you saidYou're such a tease, you're such a jerk
Why do I waste my time?
I'll make you take back all the things that you said
I'll make you take back all the things that you said
And we can be ourselves once againYou are a chainsaw through my heart
Ripping right through me from the start
You make me go crazy all night long
I need you so bad, I know it's gotta be wrongYou get on my nerves, you make me so mad
It's times like these that I just can't stand

You're so far away and I can't hurt you now
I guess I'll just use myself like I know how
