What We've Learned

Mclusky

He's a wise guy, flies right by because
He put it all in, to get on television
He's a wise guy, flies right by because
He put it all in, to get on televisionIncluding, but not exclusive toShould have known better and we do
Should have known better and we do
Should have known better and we do
Should have known better and we do, do, do, do, doHe's got nothing left to say because
He gave it all up, to be on television
He's got nothing left to say because
He burnt it all up, to be on televisionIncluding, but not exclusive toShould have known better and we do
Should have known better and we do
Should have known better and we do
Should have known better and we do, do, do, do, do
