Come to "finish" me

From the day that you left
I have lost the sun
and the night my heart
a captive has touched

Come to "finish" me
only you can do that
Come to "finish" me
don't deny that to me

In my breast do not be afraid
to nail the knife

You are all that I have and that i don't have
I'm shouting at you, listen to me, I can't bear
other to kiss the lips
that I used to kiss

There is no reason for living alone anymore
I'm like the wave that the rock breaks
you gave me life and come to take it back
I'm begging you

From the hour that I lost
you from my side
in peaces have break the happiness
and my dreams (have become)a terror

Come to "finish" me
only you can do that
Come to "finish" me
don't deny that to me

In my breast do not be afraid
to nail the knife

You are all that I have and that i don't have
I'm shouting at you, listen to me, I can't bear
other to kiss the lips
that I used to kiss
