

# My Apocalypse

## Escape the Fate

Theres a place that Ive found  
As far as I can see  
This place lies within  
The depths of my dreams  
In a garden surrounded  
By fire and trees  
Through the smoke a silhouette I can barely see  
Theres a man with an axe  
Standing in the rain Looked me straight in my eyes  
This is what he had to say Never fall asleep  
You wont wake up  
Destroy the guillotine  
Before he does I walk with shadows  
(you have to find a better way)  
I walk with shadows  
(the questions I will never say)  
Hiding from the gallows  
(they keep me safe and sound)  
So I walk in shadows  
(the ways of burning down this house) End transmission  
The satellites are down  
I need an earthquake  
To shake this pity  
OFF THE GROUND Just dont trust these liars at the door  
(you have to find a better way)  
Kill the ones that have these answers for  
(the questions I will never say) Never fall asleep  
You wont wake up  
Destroy the guillotine  
Before he does I walk with shadows  
(you have to find a better way)  
I walk with shadows  
(the questions I will never say)  
Hiding from the gallows  
(they keep me safe and sound)  
So I walk in shadows  
(the ways of burning down this house) End transmission  
The satellites are down  
I need an earthquake

To shake this pity  
Off the ground All the vibrant colors I see  
And the shades that fill the grey Pain  
The pain  
Pain  
The pain  
Pain the pain  
Pain

[x2]Hiding from the gallows  
(you have to find a better way)  
I walk with shadows  
(the questions I will never say)  
Hiding from the gallows  
(they keep me safe and sound)  
So I walk in shadows  
(the ways of burning down this house)
