Exodus

Levellers

It's simple because it is the people
Fighting for and claiming what remains
And dreaming, this is not dreaming
This is the Exodus from the gameDance beneath the stars
(We, the sound system, we, the collective)
With an open heart
(We, the solution should be respected)At midnight, the pharisees plant the poison
False evidence to bring all back in line
It's no method just dealing out by justice
When no one here's committed any crimeDance beneath the stars
(We, the sound system, we, the collective)
With an open heart
(We, the solution should be respected)We'll turn the dust to soil
Turn the rust of hate back into passion
Not water into wine but it's here
And it's happening, massive but passive
To bring the peace backRespect here, respect for all the people
Good copper, jah lawyer all good minds
Can see, can see there is no evil
The only wrong is fighting changing timesDance beneath the stars
(We, the sound system, we, the collective)
With an open heart
(We, the solution should be respected)Dance beneath the stars
(We, the sound system, we, the collective)
With an open heart
(We, the solution should be respected)
