Girls Love To Shake It

Love and Theft

Rain likes to fall, sun likes to shine,
Wheels like to roll like Corona likes a lime.
Junior likes to race, Skynyrd likes to rock it,
Money likes to burn a hole in both of my pockets.Trucks like the mud, guns like the Bang,
Me I like to see you just doing your thing.
Rivers like to run and the cars like to drive
And girls love to shake it, shake it, shake it all night.Shake it, shake it, shake it, shake it, shake it all night,
Shake it, shake it, shake it 'till the morning light
It ain't that complicated and they do it just right,
Girls love to shake it, shake it, shake it all night.Girls love to shake it, shake it, shake it all night.Preachers like a church, guitars like picking,
Water likes the melon and fry likes chicken.
Whiskey likes the barrel, tequila likes the shot,
Bikinis like the beach and summers like it hot.We like it loud, crank it up to the limit,
I wanna see the whole wide world two steppin'.
Freedom likes to reign, the flag likes to fly,
And girls love to shake it, shake it, shake it all night.Shake it, shake it, shake it, shake it, shake it all night,
Shake it, shake it, shake it 'till the morning light
It ain't that complicated and they do it just right,
Girls love to shake it, shake it, shake it all night.
Shake it, shake it, shake it, shake it, shake it all night,
Shake it, shake it, shake it 'till the morning light
It ain't that complicated and they do it just right,
Girls love to shake it, shake it, shake it all night.Everywhere we've been, everywhere we go,
Of all that we've learned, one thing that we know,
From the banks of Mississippi to the New York lights,
Girls love to shake it, shake it, shake it all nightShake it, shake it, shake it, shake it, shake it all night,
Shake it, shake it, shake it 'till the morning light
It ain't that complicated and they do it just right,
Girls love to shake it, shake it, shake it all night.
Shake it, shake it, shake it, shake it, shake it all night,
Shake it, shake it, shake it 'till the morning light
It ain't that complicated and they do it just right,
Girls love to shake it, shake it, shake it all night.
Shake it, shake it, shake it, shake it, shake it all night,
Shake it, shake it, shake it 'till the morning light
It ain't that complicated and you do it just right,
Girls love to shake it, yeah, and that's alright.
