

Salvation: Suicide

Angra

Wishing to be dead when hope is gone
Depreciating life when the days are looking bad
Sick of being alive when everyone is vain
Lost your hopes, and now you fight against depression
Cause life's hard for everyone just look all around you
So why squander all your power on self-destruction?
Too proud to make amends
Your faith, it all depends - hold on tight...
Too scared to be alive ?
Salvation: suicide, calling me!
A long way to hell!
My spoiled paradise has met this dead end
Cause i live my life all my own with pride
Too proud to make amends
Your faith, it all depends - hold on tight...
Too scared to be alive ?
Salvation: suicide, haunting me!
Get out of my way
Get out of my way
On my way to hell!
