Flaming June

BT

You pace a rhythm for love to evolve
It takes the clock off my heart
A strange vibration that purifys my soulDreamy days in my room by your side
As we bloom, colors blend and fade
In cherished moments like these
The key to all the love I feel is in meI can see it is you, you give me everything I need
to believe, to be real flaming June
The summer winds have gotten hold of me
Like sugar cane 'round my heart, it touches sweet
And tastes of softness I never hadDreamy days in my room by your side
As we bloom, colors blend and fade
In cherished moments like these
The key to all the love I feel is in me
I can see it is you, you give me everything I need
to believe, to be real flaming June
