

Fairlight

Eugene McGuinness

Out in the fairlight
Run along
Let's take the night flight
Through vermillion
Night skies
And I'm spun
The colours crystallize
Glow fairlightFly my kite
Lotus fruit
Under the floodlights
Over the moon
Through the turnstiles
Follow you
Like a homing missile
Glow fairlightLove circles
Like a whirlpool
It sucks you down
My revival
Upon your arrival
My merry-go-round
