Rise

Ben's Brother

What are you thinking?
Didn't you know?
Maybe you listened
But didn't want to let goSo what were the answers you were hoping to find?
We're all serving the master and he's robbing us blind
But take it from it from me, hold on
'Cause it gets so much betterAnd you've got to believe you're so close
'Cause there's more than one way to heaven
You've got toRise, don't just stand there, open your eyes
Shame, shame, shame on you
Try, don't just sit there wasting time
Shame, shame, shame
Shame, shame, shame on you
Shame on youYou didn't get to the party, missed the start of the show
An emotional virgin, ten times in a row
It's all just a wind up but I'm starting to learn
That the sooner you sign up, the quicker the worm turnsSo take it from me, hold on
'Cause it gets so much better
And you've got to believe, you're so close
And there's more than one way to heaven
You've got toRise, don't just stand there, open your eyes
Shame, shame, shame on you, you've got to
Try, don't you sit there wasting time
Shame, shame, shame
Shame, shame, shame on you
Shame on youSin, sin, sin that's what they
Spin, spin, spin but if you don't rise up
Now that you care
Everyones out there on our side
You got toRise, don't just stand there, open your eyes
Shame, shame, shame on you, you got to
Try, don't just sit there wasting time
Shame, shame, shame
Shame, shame, shame on you
Shame on you, shame on youYou've got nothing to lose
