

Palms (feat. Amory)

TastyTreat

You looked in my eyes while I melted
And you fell to the floor, yeah you felt it
You can't help it (x2)
And I know when you're out and feel lonely
You'll look up to the moon while it's floating
You'll think of me (x2) You woke up and you bought a ticket
You were broken you needed the distance
But that won't fix it (x2)
And you'll run from the sky as its falling
And the smell of the rain on the palm trees
You might hate me (x2) You swayed from me
Then back again
And I got tired of trying
To pull you back
No you don't have to understand
In fact
We'd both feel so much better if you didn't
