

Rise and Fall

Starset

Watch them all lie down
Watch the eyeless gain control, gain control!
They could never blind me I clench the fist
And overtake it all
I navigate the endless rise and fall
You push my back against the wall
When I attack I'm taking all I'm taking it all
Rise and fall One more fits inside the mold
One last chance to break the hold, break the hold! I clench the fist
And overtake it all
I navigate the endless rise and fall
You push my back against the wall
When I attack I'm taking all Taking it all
Rise and fall!
