

# Drink It Down

## Diesel Boy

Hola Senor / Please pour me one more / I can still feel my fingers / I've only stumbled in / For a tonic and gin /  
And some hurt in the morning / So turn me up and deal me in / Before I am a has-been / Raise up your glass /  
Throw another back / Let's drink to me / 'cause I am the king of would be / I work my hands rough / But its  
never enough / This world will soon break me / Forever held down / So they gave me the crown / Obscurity  
here I come / Just one more song for one more dance / This may be my last chance / Rescue me from this  
catastrophe / Fill me up and grant me salvation / One last salute to celebrate us all / A final shot of that alcohol /  
Drink it down
