Don't Say You Love Me

Erasure

Don't say you love me
Strange things that make me die
Don't say you love me
Strange things that make me die
I don't belong I'm still around
Won't steal you like a radio
I'm still around I won't be long
Gonna treat you like an angel
But don't say you love me
Strange things that make me die
Dance 'til we're high, you're shy
Don't say you'll cry
I told you lies I'm still around
Won't steal your act my angel
I won't be long it's still your round
Or serialize the radio
But don't say you love me
Strange things that make me die
Dance 'till we're high, you're shy
Don't say you'll cry
Don't go on I see your eyes
I screw you around my angel
You're still my love it's in your eyes
Our song is on the radio
Don't say you love me
Strange things that make me die
Dance 'till we're high, you're shy
Don't say you'll cry
Don't say you love me
Don't say you'll cry
Don't say you'll cry, I'm high
Don't say you'll cry
