

# I Don't Like Your Tone

## The Magnetic Fields

You sigh that I should try your love  
I'll never be alone  
That you are true, you coo, my dove  
But I don't like your tone You were, you murmur, further just  
A child, but now you're grown  
You hiss that this is bliss, God bless  
But I don't like your tone What's with all this purring?  
Are you a cat?  
Why are we whispering?  
Love's not like that When near I hear how clear you make  
Your so-called feelings known  
It's queer, my dear, I fear heartbreak  
But I don't like your tone
